DASARI SB MANIKANTA

Vaddadi, Andhra Pradesh, India | 9010910768 | dasarimani905@gmail.com

CAREER OBJECTIVE

B.Tech Computer Science Engineering (AI & ML) graduate with hands-on academic project experience in AI-based content generation and web application development. Interested in combining AI tools, Telugu storytelling, and creative production to build engaging short-form content. Eager to experiment with AI workflows for image, video, and voice generation, learn rapidly, and contribute to Kuku's AI-native storytelling team.

EDUCATION

Bachelor of Technology – Computer Science Engineering (AI & ML)
Nadimpalli Satyanarayana Raju Institute of Technology, Visakhapatnam | Nov 2022 – May 2026 | CGPA: 7.40

Intermediate – MPC
Sri Chaitanya Junior College, Anakapalli | Jun 2020 – May 2022 | Marks: 665

RELEVANT SKILLS

Programming & Web: Python, HTML5, CSS3, JavaScript, SQL, Flask, REST APIs

AI & Content: AI-assisted content generation, AI/NLP fundamentals, content ideation, structured content workflows, prompt experimentation (developing)

Creative & Collaboration: Attention to detail, problem-solving, adaptability, communication, teamwork, willingness to experiment with new tools

ACADEMIC PROJECTS

AI-Based Automated Social Media Content Creation
Developed an AI-powered web application that generates social media captions, post ideas, hashtags, and related content from user-provided topics and requirements. Built the user interface and backend functionality, and worked on AI/NLP integration and content-generation workflows.
Technologies: Python, Flask, HTML, CSS, JavaScript, SQL/MySQL, REST API

Weather Web Application
Built a responsive web application that retrieves and displays real-time weather details such as temperature, humidity, wind speed, and conditions using a weather API.
Technologies: HTML, CSS, JavaScript, REST API, JSON

CERTIFICATIONS

Internshala – Python | NPTEL – Python | edX – Python

LANGUAGES

Telugu (Fluent) | English | Hindi

ROLE ALIGNMENT

Interested in Telugu-language AI storytelling and microdrama production. Ready to learn and work hands-on with AI image, video, and voice-generation platforms, test prompts, review generated outputs, and improve repeatable content workflows. **Portfolio/showreel:** Available on request / add link if available.
